Question **19**

Answer saved

Marked out of 1.00

Cutting of margins of river banks by fast running surface current of water is called _____ erosion.

The runoff water moves rapidly over the soil surface cutting well defined finger shaped groove like structures is called _____ erosion

- ☐ A. Gully erosion
- ☒ B. Rill erosion
- ☐ C. Sheet erosion
- ☒ D. Riparian erosion

Question **20**

Answer saved

Marked out of 1.00

Environmental impact assessment is _____.

Which of the following model is used for environmental impact assessment?

- ☐ A. The study of feasibility of a project
- ☒ B. A study of bio-physical characteristics of the environment that may result from a human action
- ☒ C. Three factor model
- ☐ D. P3 Syndrome

Question **21**

Answer saved

Marked out of 1.00

Tertiary treatment of waste water is used in which of the following cases?

- ☒ A. used where the effluent is being discharged into the receiving water which is sensitive
- ☒ B. where the effluent is being used for irrigation
- ☐ C. Where there is affluence of water
- ☒ D. where the effluent is being used for recycling

Question **22**

Answer saved

Marked out of 1.00

_____ is called water table aquifer.

The speciality of the Artesian well is _____.

Select one or more:

- ☒ A. Unconfined aquifer
- ☒ B. Requires no pumping
- ☐ C. Pressure is 1 atm
- ☐ D. Vadose water

Question **23**

Answer saved

Marked out of 1.00

Action strategies for sustainable management of environment include

Select one or more:

- ☒ A. Conservation of natural resources
- ☒ B. Emphasis on pollution prevention and waste production
- ☐ C. Recycle and reuse of natural resources like metals
- ☐ D. over use of global commons

Question **24**

Answer saved

Marked out of 1.00

The actions which cause indoor pollution:

Select one or more:

- ☒ A. Burning wood for domestic cooking
- ☐ B. Using Natural gas for heating water
- ☒ C. Burning wood in fire places for heating closed rooms
- ☐ D. Nitrogen is used to displace oxygen in food packaging
