Question 55
Answer saved Marked out of 1.00
Major sources of nitrogen and phosphorus are:
✓ A. Run off from animal feedlots
✓ B. Chemical fertilizers
✓ C. Acid rain
☐ D. CFC's
Question 56
Answer saved
Marked out of 1.00
Which of the following are mechanical methods of soil conservation?
✓ A. Bench terrace☐ B. Mulching
C. Lay forming
✓ D. Channel terrace
Question 57
Answer saved Time left 0:11:21
Marked out of 1.00
Porosity is In wet soil mass, air occupies one-seventh of its volume and Water occupies one- eighth of its volume. What will be the ratio of volume of voids with
respect to the total volume?
Select one or more:
✓ A. Ratio of volume of pores to volume of material
☐ B. Total number of pores
☐ C. 0.329
✓ D. 0.268V
Question 58
Answer saved Marked out of 1.00
Biomass can be converted into
Select one or more:
✓ A. Methane gas
✓ B. Ethanol
✓ B. Ethanol C. Halides

Question 59 Answer saved	
Marked out of 1.00	
The particulate pollutants which fall on the soil by acid rain and get deposited on plants	
☐ A. Increase the pH of the soil	
☑ B. Decrease the pH of the soil	
✓ C. Restrict the absorption of CO₂ thereby reducing the rate of photosynthesis	
D. Make the soil fertile	
Question 60 Answer saved Marked out of 1.00	
Answer saved	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient.	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient.	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient. A. Phosphorous B. Nitrogen C. Liebig's law of the minimum	law.
"The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient. A. Phosphorous B. Nitrogen	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient. A. Phosphorous B. Nitrogen C. Liebig's law of the minimum	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient. A. Phosphorous B. Nitrogen C. Liebig's law of the minimum	law.
Answer saved Marked out of 1.00 "The growth of plant is dependent on the amount of foodstuff that is presented to it in minimum quantity" is statement of N/P ratio in a body of water over 20 generally indicates is the limiting nutrient. ✓ A. Phosphorous B. Nitrogen ✓ C. Liebig's law of the minimum D. Liebig's law of maximum	law.
